## ADVERSE REPORT ON BIG SANDY RIVER

Further Improvements Not Deemed  
Advisable by the U. S. Army Board

Big Sandy river will not be further improved by the United States Government if the report of the Board of Engineers is permitted to settle the matter. An appeal will be made by our Congressmen, however, and a hard fight may secure favorable action.

It would certainly be a mistake on the part of the Government to not build at least a few more dams, as the system now reaches barely to the edge of the coal field. Two more dams in Tug river and three in Levisa would reach a sufficient coal territory to justify the expenditures already made. It is very much to be hoped that the authorities at Washington will decide to do this and thus save what has been done.

Following is the circular sent out from Cincinnati:

1. It having come to the notice of the board made up of the undersigned members that you have expressed an interest in the pending proposition for the improvement of the Tug and Levisa forks of the Big Sandy river, Kentucky and West Virginia, you are hereby informed that the preliminary examination of the locality named, with a view to certain improvements therein, authorized by the act of Congress approved July 25, 1912, has been made, and that the report submitted thereon is unfavorable to the improvement.

2. You are further notified that all interested parties have the privilege of an appeal from this conclusion to the Board of Engineers for Rivers and Harbors, a permanent body sitting at Washington, D. C., to which all examination and survey reports of this character are referred. Parties desiring to do so may be heard on appeal by the Board, either orally or in writing. Written communications should be addressed to the Board of Engineers for Rivers and Harbors, Room 733, Southern Building, Washington, D. C., and should be mailed in time to be in the possession of the said Board within three weeks from the date of this communication. (Feb. 27th.) If oral hearings are desired, dates for the same may be arranged for by correspondence with the Board.

3. You are requested to communicate the foregoing to any persons known by you to be interested in the improvement and who, not being known to this office, do not receive a copy of this communication.

4. The grounds upon which the adverse conclusion is based are that the physical characteristics of the river are such that it cannot be improved at a reasonable cost so as to complete successfully with rail transportation, that the physical conditions are so unfavorable as to prevent the development of any large commerce after the completion of the proposed improvement, and that the cost of such improvement would be excessive when compared with resulting benefits.

5. Any further information needed may be obtained upon application to the recorder of the Board at Room 415, Custom House (P. O. Box 710), Cincinnati, Ohio, where the essential parts of the report bearing upon the question of worthiness to be seen, with the understanding that all information so obtained is for personal use only and not for publication.

Very respectfully,  
W. C. LANGFITT, Col.  
H. C. NEWCOMER, Lt. Col.  
L. H. RAND, Major.

### A PENNY PARTY.

The Ladies Aid Society of the M. E. Church will, on Friday evening, March 20, at the Savoy hotel, entertain with a Penny Party. That is to say, you will be charged a penny for entrance, a penny for a seat, a penny for a knife and ditto for a spoon and one cent for each and every spoonful of what you eat—and there will be lots of it. The NEWS suggests that the ladies be charged a penny per word for what language they use on this novel occasion.

A penny for your thoughts.

### EXAMINATION FOR RURAL CAMMERS.

On Saturday next, March 14, applicants for the place of Rural Mail carrier will be held at the public school building, beginning at 9:30 a. m. The examination will be conducted by Postmaster A. M. Hughes, and are for ten applicants.

### "CASSVILLE" CITIZEN DEAD.

John Blanton, who lived in Fort Campbell, was better known as "Cassville," Sunday died in Huntington, where he had lived some time. The remains were taken to Fort Gay and buried there. A funeral was held in Fort Gay.

### EXAMINATION OF APPLICANTS FOR POSTMASTERSHIP.

Recently in this city a member of the Civil Service Commission held an examination of candidates who want to be appointed postmasters of the fourth class offices in this county. The following persons took the examination: George Kountz and E. C. Berry, Blaine; Mrs. Williamson, the incumbent, and Dr. J. F. Hatten; Mrs. Sallie Gardner, Wobbsville; Milt Evans, Gallip, and Mr. Humphreys, Terebight. The examination was conducted by C. W. Palms, of Washington, D. C.

### THE JUNIOR LEAGUE.

One of the most interesting aids of the M. E. Church south in this city is the Junior Epworth League. It had a small beginning, but under the direction of its Superintendent, Mrs. B. M. Kohn, the helpful wife of the pastor, it has thrived and grown wonderfully. It now numbers 83 boys and girls who are carefully and systematically and successfully working to do something good in their day and generation and grow up into good and useful men and women. The Junior League has its own regular officers, consisting of president and vice presidents, secretary and treasurer, makes out its own programme under the supervision of Mrs. Kohn, and meets at the church every Sunday afternoon at 2:30. The meetings are well attended, and the interest of the members is well maintained. These little people are doing a great work for themselves, a work which will have its good effects in the church and the community.

### IN THE OIL FIELD.

J. M. Turner, contractor drilling a well for the Dossesville Oil Co., had the misfortune to drop a bit and stem into the well when it had reached the depth of 1700 feet, where the oil sand is found. It is not yet known whether it will be possible to get the bit out.

The well on the H. Burchett's farm looks to be the best in the field. Reports say it is good for fifteen barrels.

The well on Mrs. Lackey's place is estimated at ten barrels.

The Ohio Fuel Oil Company is taking all the leases it can get in the surrounding territory.

Dr. E. H. MAGGARD.

Dr. Maggard, surgeon for the Elkhorn Fuel Co., Beaver Creek, was in this city recently, having brought an employee of the company to Riverview hospital for treatment. The doctor was at one time the physician at the State Reformatory at Frankfort. He resigned that position to accept the one he now holds. Dr. Maggard's headquarters are at Wayland.

## BIGAMIST LANDED IN JAIL AT LOUISA

Ecker McDugal, Alias McKensie, charged with Having Three Living Wives.

Roanoke, Va., Mar. 7.—Described in letters from Louisa, Ky., as a ladies' man and active in church work, formerly of Iveydale, Ohio, Ecker McDugal, 30 years old, said to be in the employ of the N. & W., was arrested here today on a warrant charging bigamy.

The arrest was made on information from Lawrence county, Ky., charging that McKensie is Albin L. McDugal, who escaped from the Lawrence county jail, at Louisa, several years ago. According to information from Louisa, McDugal married Edna May Austin in Lawrence county, Ky., in August, 1911, when he had a wife, who was Miss Nancy Bennett, living in Lawrence county, O., near Ironton, whom he is charged with having married April 20, 1910.

Under the name of McKensie the man arrested today married Mrs. Fannie Groves, a widowed daughter of Mr. and Mrs. J. W. Overstreet, of Roanoke. Cincinnati Enquirer.

This much married and badly "wanted" man is now in the Lawrence county jail here. Sheriff Stone had been on his trail for some time, and when he was arrested in Roanoke the officer set about to bring him back to this county. The prisoner had an examining trial in Roanoke, however, and was released on bail. McDugal did not remain in Roanoke, but broke bail and fled. Sheriff Stone was informed of this, and knowing that the man had relatives in Charleston, W. Va., so informed the detectives. McDugal was seen to get off the train in Charleston and was trailed to the residence of one of his kin. Two of his relatives occupied adjoining houses. The buildings were surrounded, and when the fugitives emerged from his hiding place he was arrested. Sheriff Stone was informed of this and immediately went to Charleston for his man. McDugal at first demurred to coming back to Kentucky without a requisition, but finally consented to waive this formality, and he and the Sheriff arrived here Monday night.

## KILLED BY N. & W. TRAIN AT FT. CAY

John Spears Instantly Killed by a Fast Passenger Train.

Shortly after two o'clock on last Saturday afternoon John Spears, a well known citizen of Fort Gay, W. Va., was struck by east-bound N. & W. passenger train No. 16 and almost instantly killed. Spears, who had been a section man in the employ of the company was walking west on the track immediately below the passenger depot, apparently oblivious of the fact that the swift going train was rapidly approaching. He usually walked with his head somewhat bent forward, and on this occasion it was observed that he was looking at a paper sack he was carrying. He had just reached a point just below the station, when the train came around a slight curve and struck him, hurling him twenty or thirty feet from the track. When Mr. Spears was picked up he was living but died in a few minutes. He had been hit in the forehead by the pilot beam. His skull was crushed and his left arm broken.

The unfortunate man was buried on Sunday in the Beate graveyard. He was a son of Jack Spears, an old and well-known resident of Wayne county. The deceased was 36 years old and is survived by a widow, four children and a brother and sister. His wife was a daughter of Middleton Spencer, who formerly lived in Louisa. He was a quiet, sober man, and his untimely and shocking death is much regretted.

### WEST VIRGINIA ITEMS.

A complete investigation showed that five were missing and none were injured in the fire which destroyed the Lowe and Union Bank building at Clarksburg, W. Va.

S. U. G. Rhodes, of Mingo county, in the Moundsville penitentiary for bribery, is reported to be dangerously ill, and efforts are being made to secure a pardon for him.

Henry Green, negro, 25 years old, was hanged at Moundsville. His neck was not broken. Green killed his mistress in McDowell county last October in a fit of jealousy.

After evading the authorities for nearly two years, William McGirr, whose home is said to be in Starnes, Ky., is now in the Logan jail charged with the murder of two foreigners at Rockhouse, on Coal river, April 17, 1912. McGirr is a blacksmith by trade, about forty years old, married and has a family.

Surgeons who operated upon Mrs. Laura Cassell, of Widdell, W. Va., for appendicitis, failed to find the appendix on the right side and finally located it on the left side by a second operation. A further examination disclosed the fact that heart, spleen and liver were also on reverse sides.

J. F. Ritchie, J. R. Burns, Chas. S. Windsor, W. C. Devant and C. Y. Fanne, of Fairmont, W. Va., have incorporated the Lincoln Coal Mines Corporation with a capital stock of \$150,000. Their plans provide for extensive coal and developments in Lincoln and Logan counties, but details have not been announced. Manufacturers' Record.

Judge R. B. Dyer, of Charleston, who has been hearing testimony in the \$25,000 damage suit of Mrs. Anna Hall against C. & O. Ry., for damages alleged to have been sustained when she was shot from the armored train which passed up Paint creek during the recent miners' strikes, ordered the jury to bring in a verdict for the railroad company, declaring Mrs. Hall's evidence failed to make a case.

A deal involving the lease of about 1400 acres of coal and gas land in Lincoln county, on Guyan river near the mouth of Big creek, was closed this week between Beck and George Baskirk, of this city, owners of the tract and Postmaster Jerry Dinges, of Huntington; Virgil A. Highland, of Clarksburg; and James S. Lakin, president of the State Board of Control. The lessees intend to open the tract at once, first going after oil, and they expect to let contracts for the drilling of three wells at once.—Logan Democrat.

Acting on word received from federal authorities at Huntington on Saturday, Logan officials arrested V. H. Dinges and held him until Monday when Deputy Marshal Ketcham arrived and took him into formal custody. Dinges was given a preliminary hearing at Huntington and held under \$1,000 bail to answer charges of white slavery and violations of the postal laws. It is alleged that Dinges eloped with the wife of H. D. Hatfield of Ashland, Ky., to Huntington and that from there, the two went to Logan. Sensational developments are expected when the case comes to trial.

### A TACKY PARTY.

The ladies of the M. E. Church gave a "tacky" party on Saturday night last at the home of Mr. and Mrs. Dock Jordan. It was the mostest tackyest sort of an affair, greatly enjoyed by all who attended. Cuke and coffee were served.

### IN HOSPITAL WITH LACERATED LEG.

James Combs, an employee of the Consolidated Coal Co., of Beaver Creek, is at the Louisa hospital suffering from the effects of an accident which occurred in the mines of the company a short time ago. While at work there one of Combs' legs was caught between a couple of mine cars and the calf of the leg was nearly torn away. For several days it was thought that amputation would have to be resorted to in order to save the injured member but that danger is now past and unless some unexpected trouble ensues the man will get well.

### DEATH OF MRS. EZRA HATTEN.

After a long illness caused by tuberculosis Mrs. Ezra Hatten died at her home in this city on Wednesday night, aged about 33 years. She is survived by her husband and several relatives, among whom is a brother, Sam Salyer, of Pittsburgh, who was at her bedside when death ended her suffering. Mrs. Hatten was childless. The funeral will occur Friday at 1:30 p. m. Services will be held at the M. E. Church.

Before marriage Mrs. Hatten was Miss Sadie Patton, and was a sister of Mr. Henry Patton, of Magoffin county. She was a quiet woman, of domestic tastes, well liked by all who knew her. Her friends will regret her untimely death.

### OLD TIME SPELLING BEE.

Mr. E. S. Kegley, who has been appointed U. S. Agricultural agent for Lawrence county, has arrived and is arranging the necessary preliminaries for beginning his work. Louisa will be his present headquarters, from which he will operate throughout the county. Dr. Mutchler, who has charge of the U. S. Agricultural Extension at Lexington, will be here on Monday next when definite plans will be arranged. Mr. Kegley is a man of much intelligence, apparently thoroughly informed concerning his work. He is an agricultural farmer, and is a practical farmer, reared in the rich farming district of southwestern Virginia—reared between rows of corn, so to speak, but by no means a "punkin head."

For the present Mr. Kegley will be found at the Brunswick, where he will be glad to meet and become acquainted with our Lawrence county farmers. This note is merely introductory. After Dr. Mutchler comes the NEWS will have more to say of this good move to better the agricultural interests of the county.

## C. & O. RAILWAY PLANS FOR EXTENSION

Announcement Made by President Stevens as to Earnings and New Line

New York, March 10.—George W. Stevens, President of the C. & O., says: "At the current rate of earnings Chesapeake & Ohio will earn 7 per cent upon stock in the fiscal year ending June 30 next. This will leave a margin of 3 per cent above dividend requirements. On July 1 next the Hocking Valley expects to begin construction of an extension south from Columbus to make a direct connection with the C. & O. main line at Portsmouth, a distance of about 90 miles. This work will take two years to complete and will be financed separately. It is expected that C. & O. will derive sufficient coal tonnage from this connection to more than warrant the expenditure. At present C. & O. makes its connection with the Hocking Valley over the Kanawha and Michigan, either from Gauley, W. Va., or Point Pleasant."—Cincinnati Enquirer.

### Railway Up Tygart.

After the bridge a railway line up Tygart on the north and south survey is a certainty, and here is every assurance that it will be built by the C. & O., making a direct line from the Big Sandy coal fields to the lakes, saving many miles of haulage over the Big Sandy line and easier and cheaper of construction than the double-tracking of the Big Sandy branch, which will be unable to accommodate the increased traffic that is coming from that section now being developed. This Tygart line will be to the C. & O. what the Nantuck-Kenova 60-mile construction was to the N. & W., in relieving itself of the wandering mileage of the Twelve-Pole division, a division that couldn't possibly handle one-tenth of the business that is now handled by the N. & W. over the new line. The reference to the Tygart valley line is not an idle dream, but is backed by an information that is considered reliable and the plausibility of it is most convincing.—Portsmouth Blade.

### EPISCOPAL SERVICES.

On Tuesday evening next the Rector, the Rev. J. Howard Gibbons, will preach in the M. E. Church. The service will begin at 7 o'clock. You are cordially invited to attend. On Monday evening, March 30, the Rt. Rev. L. W. Burton, Bishop of the Diocese of Lexington, will hold service and preach at the M. E. Church. Those who have heard Bishop Burton preach will gladly embrace the opportunity for hearing him again.

### COLUMBUS, O.

Editor News:

While reading the Sunday edition of the Ohio State Journal last Sunday morning I found about sixteen pages devoted to automobiles including part of the first page. Is it any wonder how eagerly we used to grasp the NEWS and read especially from Glenwood and view where Bill Spilhaus has a bone for us? I am sure you would find it from a horse; that St. Plunk had rented his new ground to Oke Marshall; that Rev. Evans would preach at Straight Creek; that Luke McGloot was calling on his best girl Sunday; that Turner Jones made the editor a present of a bushel of Ben Davis apples; and so on with all the interesting happenings of the community. For this interesting information, and is what the people read and what they want in the paper. They do not first turn to the news about Mexico, or the progress of the Panama canal legislation, or what the smart set is doing in New York. They may read them or they may not, but where they turn to first is the local, the personal column, the information about their friends and neighbors, what they are doing or what is happening to them.

The local features of a country newspaper are endearing to them. When they move away they have it sent to them and they read every number because it tells them all about their old friends, and they are thereby kept in touch with the place that will always be back home. The country paper is an indispensable part of the home. Being once a resident of Lawrence county but lately of Columbus, you can bet I will in the future be a subscriber to the dear old Big Sandy News.

## That Weak Back

accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—or spasms—all are signs of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many women weak. At any or all of these periods of a woman's life she should take a tonic and nerve prescriber for just such cases by a physician of vast experience in the diseases of women.

### DR. PIERCE'S Favorite Prescription

has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Miss Elizabeth Lonsdale of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health, I was aching and had pains all over my body and was so nervous that I could scream if anyone talked to me, but I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Prescription. I have never had an occasion to consult a physician since—am in excellent health."

Dr. Pierce's Pleasant Pellets regulate stomach, liver and bowels—sugar-coated, tiny granules.

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIME.

### A Bit of Counsel.

I love young girls, you know I do. It is a trick I had of old, and it grew upon me with the passing years, but loving them as I do, I want to see them helpful and lovable and sweet. I want to see them slow to wound another's feelings, and quick as sunlight after rain with sympathy and tender, womanly ways. I want to see them brave, yet gentle; gay, yet kind; modest, yet self-reliant; fun-loving, yet never loud and rude. I want to bear the young men in speaking of them from time to time as they sit near me on the train, speak of something beside their extravagance and their desire for show. I want the world to be the sweeter for their carrying it, as a room is sweeter that holds a blooming flower. And what should make you sweet, dear girl? Not fashionable gowns, nor dainty clothing, not beauty alone nor grace nor wealth so much as usefulness and constant thought of others. Don't grow to think too much of what the world would say about you; think more of the real than of any seeming, and don't let the lily of innocence wither in your hand. Don't be a flirt! It is better to be a little bit old-fashioned than to know too much of the ways of the world. Don't be over cautious; it is better for a young girl to be outspoken and quick to voice her mind than to be polite and gentle and hard to catch napping.—Amber.

### Marrying For Love.

It is an old adage that "when love comes in at the door, good sense flies out at the window." While this was unquestionably the cynical utterance of some cranky old bachelor, there is infinitely more truth than poetry in all laws of this sort. For if there is on the face of wide creation a creature apparently bereft of all sense and reason it is the individual who is deeply in love. There is not enough common sense left in the average brain under such circumstances to come in when it rains unless the beloved one has by chance sought shelter under the roof beforehand. Love is defined as "a pleasant illness," and is apparently one to which most people seem not to object. Even second and third marriages are not only endured, but to all appearances, welcome.

There is a good deal of sentimental twaddle indulged in about this subject of marrying for love. To do this is all very well, provided there is some reason behind it; but to marry simply and only for love is a

performance that might, without any stretch of the imagination, be characterized as idiotic. Poets, novelists and the troubadours of old have said and sung the charms of the tender passion, but philosophers and sages long ago made up their minds that good, healthy reason lasts longer and pays larger dividends than the most extravagant gush that ever deluged the souls of the happy young things who live only in the light of each other's eyes. But the lucky pair use they who unite reason and love, the harmlessness of the dove with the wisdom of the serpent.

### Ward of Thought.

It is a trite, homely old adage that says, "more wrong is wrought by want of thought," etc. Certain it is that the mass of suffering and tragedies of the world are the direct result of indecision and thoughtlessness. The old parable of the thoughtless grasshopper who sang all summer and starved when the season of death came, is verified daily. Too many young people fail to take an earnest view of life, and too many suffer for their thoughtlessness. In this land, where fortunes are piled up from poverty, there is too often a tendency toward the belief that this is luck, rather than the result of toil and industry, and, above all, a peculiar genius for money-making that a few possess.

The boy, therefore, imagines it will do no harm if he idles for a while. When he is ready to settle down he can easily acquire wealth by a peculiar sharpness that quite likely he does not possess. He forgets or fails to comprehend that even if he is possessed of financial genius it must also be united with prudence and a moderate amount of industry to achieve a career. A great many boys and girls fail to make themselves valuable to their employer because their aim is not to do their work well, but simply to earn wages. They are over eager to be through and slow to begin. Such workmen never rise beyond mediocrity. Boys in this country are too often outstripped by foreigners in the shops and trades because they lack systematic business habits. They have not been trained to their work as the foreign youth has been, under the sternest of all masters—necessity.

Nourish kindly feelings; look on the bright side of things and the best side of people; think happy thoughts; smile whenever you can; speak gently; find pleasant things to say for they make the music of the world. These things are not written among the recipes for improving the complexion but they will help to make the face fair.

### ZELDA.

I want to say in regard to the letters "May Flower" and "Curly Locks" which you have been publishing for the last month are nothing but false. There is not a word of truth in them. The Misses Garnet Meade and Sarah Vanhook who were reported to have gone to Africa as missionaries, is false. These girls have not been off Big Sandy. Bruce Atkins has not gone to North Carolina; he has accepted a position in an Ashland bank. Goldie Bellomy and Cleve Stewart have not gone to Richmond to school. The item about Billy Peterman getting three of his toes cut off while attempting to get on a freight train is a lie from start to finish. Miss Nola Vanhook has not gone to St. Louis. I would be glad if you would discontinue such lies from the Zelda news. JOHN SLONE.

### THE BEST CLIMATE IN U. S.

Come to Yuma, Arizona, the land of sunshine, no floods, no blizzards, no cyclones, sunshine 365 days in the year, 12 months' growing season and haying in January; 12 tons of alfalfa hay per acre annually; the greatest cotton country on earth; oranges, lemons, grapefruit, peaches, grapes, apricots, dates figs and other fruits and melons produce more bountifully and reach the markets earlier and consequently bring better returns than from any other section of the United States. Fruits are not grown anywhere else in the world with the quality of flavor of the Yuma fruits. Crops will bring annual returns of from \$100 to \$1200 per acre annually. You may live here in comfort and happiness, surrounded upon every side by smiling prosperity. Ten acres here is better than a life-time salary of \$125 per month; twenty acres will in a short time make a large family independent, while forty acres, if properly handled, will bring a good fortune in a few years. Our water supply is unlimited, being diverted from the Great Colorado by the U. S. Government's \$8,000,000 irrigation project. Why live in the land of floods, snow, sleet and ice, cyclones and blizzards and eke out a mere existence when there is open to you the lands of the wonderful Yuma Valley; where exists perpetual sunshine, prosperity and happiness, where life is worth living. Having girl, sell your holdings or mortgage for all you are able and come NOW. For literature address McCLURE REALTY, LOAN AND TRUST CO., 352 2nd St., Yuma, Arizona. St-pd-4-10

## AFTER SICKNESS OR OPERATION

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigested nourishment in Scott's Emulsion which is totally free from alcohol or opiates.

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion sets in action the very forces that promote health; is pure, rich strength.

## ANNOUNCEMENT.

We are authorized to announce John M. Waugh as a candidate for Circuit Judge of the 32nd Judicial District, subject to the action of the Democratic party in the primary of August, 1915.

We are authorized to announce H. C. SULLIVAN, of Lawrence county, as a candidate for the nomination for Commonwealth's Attorney for the 32nd Judicial District, subject to the action of the Democratic party.

## G. W. CASTLE FOR COMMONWEALTH'S ATTORNEY.

G. W. Castle, of Lawrence county, announces his candidacy for the nomination for Commonwealth's Attorney for the 32nd Judicial District, Primary Election in August 1915, earnestly requesting the support of all Democrats of the District.

In all 4,350 applications for Confederate pensions have been filed and 2,019 allowed.

The movement to call a Constitutional Convention for 1919 was defeated when the Senate voted down the Bosworth bill providing for the call.

The Kentucky Legislature has passed a county unit bill which greatly strengthens the temperance laws of the State. An amendment to the constitution for State-wide prohibition is expected to carry also.

The Legislature has ten more working days. Then the members will return home and receive the "cussings" of everybody for not doing in sixty days what could not have been done well in a year—Cadiz Record.

Congressmen Hughes and Langley will appear before the Board of Engineers for Rivers and Harbors to urge reconsideration of the adverse report on Big Sandy river. These gentlemen have always been active in behalf of the improvement of this river and we hope they may again succeed as well as they have in the past.

The Glenn fire insurance law has been signed by Governor McCreary and should give the public considerable relief. The insurance companies are very bitter in their denunciations of the law, naturally. They have heretofore controlled both ends of a great hold-up game. Could hardly expect them to submit decently to regulation.

The Legislature of 1912 very wisely provided for the appointment of a commission to study the intricate subject of tax systems and report its findings to the present Legislature in the form of a bill suitable for Kentucky's needs. This was done. The commission hired one of the most noted experts of the United States on this subject and worked faithfully with him. What seemed to be an excellent bill was introduced in the House early in the session. Much time was consumed in discussion of its various features, and most of the members offered amendments and so muddled up the proposition that when it finally got through the House a few days ago it was all shot to pieces. Revision of the tax laws is the most important subject before the Legislature, but there is hardly a chance now to pass any law on the subject. The bill should have been accepted as presented by the commission.

The State Aid road bill introduced by Hon. John McCreary, and which passed the House early last week, provides a State tax of five cents on each one hundred dollars worth of property. A county may get one dollar from the State for each dollar it raises for road purposes. Applications for State aid to be handled in the order in which they are filed. No county can get more than two per cent of the State's total fund in any one year, but if a county puts up more than is available in one year the State will pay annually until the total amount is equalled. Also, the law will make it possible to participate in the National aid appropriation passed by Congress.

There are eighty-nine pauper counties in Kentucky, and the majority of them are pauper because they have no roads. The quickest and cheapest way to make these counties self-sustaining is to build good roads. State aid is necessary to this end, and the richer counties will soon be relieved of the burden of helping support the poor ones if good roads are established.

Lon Moles, who had relieved Mr. Parsons as "second trick" man at the passenger depot for a short time, has returned to his home at East Point.

## MOTHER: IF CHILD'S TONGUE IS COATED.

If cross, feverish, constipated, bilious, stomach sour, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled!

# The NEW SUITS

## ARE WELCOMING YOU ON OUR SECOND FLOOR

This, our first showing of Spring 1914 Suits is somewhat out of the ordinary representing a larger assortment of styles—colors and materials than the usual first display.

It is indeed a comprehensive line and we would like the pleasure of showing you—if you are not ready to buy's a look through the line will give you an excellent idea of the advance styles and will help you decide when you are really ready.

The materials this season readily adapt themselves to the newer style while the colors are exceedingly attractive.

Those fabrics prominent in this selection are representatives of the chosen ones seen in the fashion centers—rippled cloth Desville suitings, basket weaves, crepes and serges, each we show in some of these shades. The tango, chestnut brown, corrot, moss green, mandarin, Japanese blue, cotta and the style black and check.

May we not have an early opportunity of showing you the handsome suits.

### FALLING HAIR MEANS DANDRUFF IS ACTIVE.

Save your Hair! Get a 25 cent bottle of Danderine right now—4 Also stops itching scalp.

Thin, brittle, colorless and scraggy hair, with evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrivel, loosen and die—then the hair falls out fast. A little Danderine tonight—yes—any time—will surely save your hair.

Get a 25 cent bottle of Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

### HEADACHY, COSTIVE, BILIOUS—"CASCARETS"

Sick Headache, Bad Breath, Sour Stomach, mean Liver and Bowels are clogged—Clear up!

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the consipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

Dr. T. D. Burgess, city, was called to Giles Thursday last by the death of his brother-in-law, Dr. S. B. Burgess, who died at his home in Giles. Dr. Burgess was 63 years old. His death was caused by a disease of the liver. The widow is the oldest sister of Dr. Burgess.

...y & Kohn at Louisa has agreed to dissolve partnership April 1st, and in order to do so, we must raise the amount stated Jake will stay in Louisa, otherwise it will be Mr. Kohn. Therefore I, Jake, appeal to the people of Lawrence County, Ky., and Wayne County, W. Va., to help me in raising the necessary amount so I can remain here. I do not ask for charity, but only beg the public not to overlook the great values which will be shown in our store during this sale. Everybody knows that my past sales were satisfactory to the public, but never in the history of Eastern Kentucky mercantile annals was ever known any such values as will be offered now. It does not matter whether I get to remain in Louisa or not, but I am making a desperate effort to do so. The prices will be so low that it will be unbelievable. Nevertheless we will do as advertised. The thousands of our satisfied customers know when Jake claims to do something he always does it. Therefore I want you to read this bill and come. Rain or shine the sale starts SATURDAY, MARCH 14th, at 8:30 A. M. Sharp, and continues until TUESDAY, MARCH 31st, not one day longer. Our stock consists mostly of Spring and Summer Goods (there are a few winter goods). You can clothe and shoe your family for a trifle. No man, woman or child can afford to overlook this golden opportunity.

This sale will surpass any of our past sales. We will really do more than what we claim, as we can not explain on paper the thousands of bargains that we will have during this sale. Seeing is believing. Therefore set a day apart and come to this dissolution sale. You will never regret it. Tell your neighbors about this wonderful event; they will thank you; they want to save too. To make the story short, as long as Louisa has been on the map there was never known such a money-saving sale as this will be. So join the crowds and come to our store Saturday, March 14th, until Tuesday, March 31st. If I should be the lucky one to raise the money to remain in Louisa I promise you that I will keep the prices down all the time. I know competition would rather see Jake leave, as he was always in the way; but he is not in the way of the people. If Jake leaves Louisa the new tariff law will have no effect here. So help me in keeping the tariff down. It is no use for us to pass a law and not comply with it, and if Jake leaves Louisa the law will not be enforced. I believe we as American citizens ought to abide by the laws of our country. There is only one way to be benefitted by the tariff law in Louisa—that is for Jake to remain, and if everybody will help me then I will do my best. I have only one way to remain, that is to slaughter our \$15,000 stock of merchandise in order to raise \$5,000 in cash, and I am more than willing to do that. To give you an idea of prices we quote only a small list. Come and see for yourself.
